Experience

Intapp - User Experience Designer

December 2023 - June 2026

- Audited and redesigned AI visual patterns across 5 products, ensuring AI transparency with accessible components
- Deployed multiple key flows for a business development tool for lawyers, through research methods, usability testing, and prototyping
- Led design on key features for Intapp's flagship AI product, simplifying complex flows and increasing task completion
- Designed key grid editing feature for Intapp DealCloud, leading to 20 client enablements and increased user satisfaction metrics

UT Austin Design Lab - Product Designer

November 2022 - May 2023

- Led the research and redesign of the web experience for the Rob Roy Kelly collection, a special wood type collection holding over 150 typefaces

IBM - Visual / Product Design Intern

May 2022 - August 2022

- Led visual design for complex dashboard which tracked metrics for over 50 IBM Quantum touch points, now used for quarterly share outs
- Collaborated with cross-functional stakeholders from Product, Data, and Marketing through user interviews, card sorting, and usability testing
- Cut implementation time of dashboard on Amplitude from months to 20 minutes

argodesign - Product Design Intern

January 2022 - May 2022

- Supported team in delivering 8 conceptual design flows that introduced new features for an e-learning development platform, helping retain them as a client
- Structured a feature concept analysis spreadsheet based on the Kano Model which prioritized 17 concepts out of over 500
- Presented an audit of Robert Half's design language system to 2 key stakeholders, triggering an internal audit
